Nick Brown

Channel Sales and Partner Programs | Two-Tier Distribution | Network Infrastructure

Timonium, MD | nicholas.brown.umd@gmail.com | linkedin.com/in/nick--brown | nbrown31.github.io

EXECUTIVE SUMMARY

Channel leader with experience on both sides of two-tier distribution: vendor channel management at NetAlly and supplier portfolio management at Tessco. Finished at 166% of a $5.4M annual quota at NetAlly. Grew a $53M supplier portfolio by $20M a year at Tessco. Uses POS data to catch revenue problems early, builds partner programs that hold up to ROI review, and gets new products selling through distributors and resellers.

CORE COMPETENCIES

Channel and Partners: Two-Tier Channel Strategy | Distributor Management | Partner Recruitment and Enablement | Partner Programs (Deal Registration, SPIFFs, MDF)

Revenue and Analytics: Quota Attainment | Revenue Forecasting | POS Analysis | Pricing Strategy

Go-to-Market: Product Launch | Channel Marketing | Vendor Management | Contract Negotiation

Tools: Salesforce | Dynamics | SAP | AI Workflow Automation (Claude)

PROFESSIONAL EXPERIENCE

NetAlly | Remote

Channel Account Manager

Managed national distributors (Anixter/WESCO, Ingram Micro, TD SYNNEX) and a long-tail book of 1,600 resellers for a maker of network test and cybersecurity tools sold only through two-tier distribution.

- Finished at 166% of a $450K monthly quota ($5.4M a year) across national distributors and the long-tail reseller book. Drove it through the LinkRunner AT 1500 and LinkRunner 100G launches, new reseller recruitment and deeper selling inside existing partners, including 66% year-over-year growth at a target Cisco reseller.
- Found a sharp H2 2025 revenue decline at a national distributor through POS analysis. Escalated to the partner's VP and CRO and launched a utilities and rail push: sales deck, all-sales training, prospect list and vertical outreach.
- Designed a self-service channel for a long tail of 1,600 smaller transactional resellers, built on an Americas-wide partner analysis. Centered on a self-serve channel hub so resellers could get what they need without a channel manager.
- Ran partner programs: helped redesign deal registration, launched a reseller SPIFF program, managed MDF and co-op funds with distributors and reviewed incentive spend for ROI.
- Ran channel marketing for the LinkRunner AT 1500 and LinkRunner 100G launches: partner outreach, sales enablement, a revamped partner page and a new bi-weekly reseller newsletter.
- Built the POS reporting framework (YoY trends, monthly heat maps, product deep-dives) and used Ingram Micro POS to find SLED and Federal targets.
- Built 11+ AI tools for partner vetting, POS analysis, account planning and reporting.

- Recruited new reseller partners, vetted inbound applications and ran distributor QBRs.

Tessco Technologies | Hunt Valley, MD

Strategic Planner / Vendor Manager

Managed a supplier portfolio with $53M in revenue and $13M in gross profit at a value-added distributor of wireless and network infrastructure products.

- Grew annual portfolio revenue by $20M.
- Led new product introductions that drove 125% portfolio growth.
- Cut product launch effort 40% through a cross-functional process project.
- Improved vendor performance 30% and lowered inventory costs through regular supplier reviews.
- Built end-of-life procedures and deal registration programs that reduced write-offs and gave sales better visibility into open deals.
- Set competitive pricing, built annual marketing plans with suppliers and ran supplier QBRs from performance data.
- Created partner and customer-specific programs to drive loyalty and revenue.

Johns Hopkins University and Johns Hopkins Hospital | Baltimore, MD

Early Career: Contracts, Compliance and IT

- Contracts Specialist: managed a multimillion-dollar award portfolio and negotiated 30+ vendor contracts, cutting costs 10% and processing time 30%.
- Credentialing and Compliance Coordinator: credentialed 218 providers during COVID-19 and built a compliance tracking system that improved efficiency 40%.
- IT / Multimedia Specialist: cut annual technology spend 15% through vendor negotiation and a new vendor management system.

EDUCATION

Bachelor's degree, Environmental Science, University of Maryland University College
